Hon'ble CM Shri Siddaramaiah Launches KWIN City, Karnataka's New Landmark for Knowledge, Wellbeing and Innovation.

- Strategically located between Dabaspet and Doddaballapur, KWIN City spans 5,800 acres and is set to redefining a new era of growth driven by innovation and sustainability
- Situated just 45 minutes from Bengaluru Airport, KWIN City is a smart, sustainable ecosystem poised to attract global talent and foster economic growth in Karnataka

Bengaluru, September 26, 2024: Karnataka takes a monumental step into the future with the launch of KWIN City, unveiled by Hon'ble Chief Minister Shri Siddaramaiah, Hon'ble Deputy Chief Minister Shri D.K. Shivakumar, and Hon'ble Minister for Large & Medium Industries and Infrastructure Development Shri M.B. Patil at Vidhana Soudha today. Spanning an impressive 5,800 acres, KWIN City is set to redefine Karnataka's business landscape, integrating Knowledge, Wellbeing, and Innovationinto a cohesive ecosystem that fosters growth and drives innovation.

A City Designed for the Future: Synergy, Sustainability, and Smart Living, KWIN City is strategically located between Dabaspet and Doddaballapur, just a 45-minute drive from Bengaluru Airport, 50 km from the city center, and 5 km from the Bengaluru-Pune Greenfield Expressway. The city boasts meticulously planned intra and inter-transport systems, reducing congestion and enhancing convenience, with seamless connectivity through the Bangalore-Hubli-Mumbai Express rail route and proximity to National Highways 44 and 648.

Shri Siddaramaiah, Hon'ble Chief Minister of Karnataka, expressed his vision for the new city, "KWIN City represents Karnataka's bold vision for the future — a state-of-the-art hub for knowledge, health, innovation, and research. We are creating an ecosystem that will drive economic growth, attract global talent, and foster groundbreaking advancements. KWIN City is not just a project; it is a testament to our commitment to excellence, sustainability, and the well-being of our citizens. We are proud to lead the way in establishing Karnataka as a global leader in innovation and development."

Shri D.K. Shivakumar, Hon'ble Deputy Chief Minister of Karnataka, highlighted the city's strategic importance, "KWIN City is a landmark initiative that embodies our vision for the future of Bengaluru and Karnataka. As a dynamic hub for knowledge, health, innovation, and research, KWIN City will enhance the region's reputation as a global leader in these critical sectors. Strategically located near Bengaluru, KWIN City will benefit from the city's vibrant ecosystem and at the same time will contribute significantly to its development. Together, we are building a brighter, more prosperous future for all."

Shri M.B. Patil, Hon'ble Minister for Large & Medium Industries and Infrastructure Development, spoke on the economic impact, "KWIN City is a transformative initiative that underscores Karnataka's commitment to fostering a robust business ecosystem. With this city, we are setting the stage for unparalleled industrial growth and development. This project will not only attract significant domestic and international investment but also create vast employment opportunities, driving economic prosperity. KWIN City will be a beacon of industrial excellence, showcasing Karnataka's strategic vision and dedication to becoming a global innovation powerhouse."

KWIN City envisions creating a vibrant, green metropolis spread across 5,800 acres, designed to accommodate 500,000 residents. The city will feature a solar farm spanning 465 acres, capable of generating 0.69 million MWh to meet its entire energy needs. Additionally, KWIN City will harness 50% of its water requirements through an advanced rainwater harvesting system, with an extra 20% supplied by borewells, ensuring a sustainable and self-sufficient water supply.

KWIN City comprises four key districts/pillars: Knowledge, Health, Innovation, and Research. The synergy among these districts will not only foster economic growth but also drive groundbreaking advancements in various sectors. As a planned city, KWIN offers a new-age, sustainable lifestyle by integrating state-of-the-art technology with eco-friendly infrastructure, setting an example for smart cities of the future with self-sufficient water and electricity systems.

Key Districts Driving KWIN City's Vision

Knowledge District: With a dedicated Knowledge Hub, KWIN City aspires to establish a premier education hub featuring modern curricula and top national and international institutions. Leveraging UGC regulations, the city aims to attract the top 500 foreign educational institutions to operate campuses in India, fostering academia-industry partnerships that will propel Karnataka to the forefront of global education.

Health District: Featuring a Life Sciences Park, KWIN City will position itself as Asia's leading academic medical hub, shaping the future of healthcare by attracting top national and international hospitals. This initiative will elevate Karnataka's standing in medicine, both domestically and internationally, making it a beacon for healthcare excellence.

Innovation District: KWIN City will cater to emerging themes in sunrise sectors such as Life Sciences, Future Mobility, Semiconductors, Advanced Materials, Advanced Manufacturing, and Aerospace, Defence, and Space Technology. By adapting to global trends and market demands, KWIN City aims to bolster Karnataka's role in the broader business landscape, fostering an environment of continuous innovation.

Research District: Dedicated to enhancing biopharmaceutical and scientific research, KWIN City will incorporate cutting-edge technology to establish clinical trial centers and research labs. It will encourage the dissemination of research findings through publications, seminars, and public lectures, contributing significantly to the global knowledge economy.

KWIN City's strategic vision is guided by an advisory board of notable personalities, including Kiran Mazumdar Shaw (Chairperson, Biocon), Dr. Devi Shetty (Founder, Narayana Health), Ranch Kimball (Board Trustee, Boston University), Thomas Osha (Executive Vice-President, Wexford Science and Technology), Mohandas Pai (Former CFO and Board Member, Infosys), Nikhil Kamath (Co-Founder, Zerodha), Prashant Prakash (Partner, Accel), Dr. Vivek Jawali (Chief Cardiothoracic and Vascular Surgeon), Stephen S Ekker (Associate Dean of Innovation and Entrepreneurship, UT Austin), and Dominique Rossin (Provost of Ecole Polytechnique, Vice-President for Education at Institut Polytechnique de Paris).

The KWIN City was officially inaugurated by Hon'ble Chief Minister Sri Siddaramaiah, in the esteemed presence of Hon'ble Deputy Chief Minister Shri D.K. Shivakumar, Hon'ble Minister for Large and Medium Industries and Infrastructure Development Shri M.B. Patil, Hon'ble Minister for I.T., B.T., Rural Development, and Panchayat Raj Shri Priyank Kharge, Hon'ble Minister for Minor Irrigation, Science, and Technology Shri N.S. Boseraju, Hon'ble Minister for Higher Education Dr. M.C. Sudhakar, and Hon'ble Minister for Health and Family Welfare Shri Dinesh Gundu Rao, Shri Rizwan Arshad, MLA of Shivajinagar Constituency. Also, Dr. S. Selvakumar, IAS, Principal Secretary of the Department of Commerce and Industries, Smt. Gunjan Krishna, IAS, Commissioner for Industrial Development, and Dr. M. Mahesh, IAS, CEO and EM of KIADB were during the launch of the KWIN City.

KWIN City is more than a development; it is a bold step toward the future, creating a world-class hub for education, healthcare, innovation, and research.To know more, visit: kwincity.com

'Gamechanger' KWIN City launched

Bengaluru: Chief minister Siddaramaiah Thursday un-veiled the Knowledge, Wellbeing and Innovation (KWIN) City project, calling it a transformative step to-ward building brand Karnataka and India.

The project envisions a vibrant, green metropolis, accommodating 50,000 residents across 5,800 acres. A 465-acre solar farm will generate 0.7 million MWh of energy, meet ing residents' power needs. Additionally, 50% of the city's water will be sourced through advanced rainwater harvesting systems.
This city will feature four

districts dedicated to knowledge, health, innovation, and research. It aims to establish a premier education hub with modern curricula, thanks to the presence of 500 foreign educational institutions.

NEW VENTURE: CM Siddaramaiah and his cabinet colleagues at the launch of KWIN City project in Bengaluru on Thursday

The CM described KWIN City as a "state-of-the-art hub for knowledge, health, innova-tion, and research" that would propel economic growth and

attract global talent. "We are creating an ecosystem that will drive economic growth, attract global talent, and foster groundbreaking advancements," Siddaramaiah said, adding

that KWIN City symbolises Karnataka's commitment to excellence, sustainability, and innovation.

The project, which falls between Dabaspet and Dod-daballapur, aims to integrate knowledge, wellbeing, and in-novation into a dynamic eco-system that will redefine Karnataka's business landscape. "KWIN City is not just a project but a testament to our commitment to excellence, sustainability, and the well-being of our people. We are proud to lead the way in estab-lishing Karnataka as a global leader in innovation and de-

velopment," he said. Deputy chief minister DK Shivakumar emphasised the benefits of KWIN City, highlighting how it would con tribute to Bengaluru's al-ready thriving ecosystem and significantly aid its further development

Industries minister MB Patil said, "This project will not only attract significant domestic and international investment but also create vast employment opportunities, driving economic pros-perity. KWIN City will be a beacon of industrial excel-lence, showcasing the state's vision and dedication to becoming a global innovation powerhouse.
