SME Portal Launch

The SME Portal serves as an ongoing platform designed to facilitate vendor development and build a robust supply chain ecosystem for SMEs. It acts as a central hub for businesses to interact, share resources, and streamline their processes. By enabling connections and fostering collaboration, the portal supports SMEs in scaling their operations and positioning

themselves as reliable vendors for larger organizations. One of the standout features of the portal is its AI-based matchmaking system, which intelligently connects buyers and sellers based on their requirements, capabilities, and business profiles. This advanced functionality ensures that SMEs find the most relevant opportunities, creating seamless and efficient linkages within the supply chain ecosystem.

Key benefits of the portal include:

Vendor Development: The platform helps SMEs integrate into larger supply chains, establishing themselves as key players in vendor networks.

Ecosystem Building: By connecting SMEs with buyers, industry leaders, and resources, the portal strengthens Karnataka's industrial ecosystem and fosters sustainable growth.

Market Visibility: It provides SMEs with opportunities to showcase their capabilities and offerings to a broader audience.

The portal is already operational and accepting registrations, with its official launch conducted at the closing ceremony of Invest Karnataka 2025. This milestone event will further emphasize the portal's critical role as a tool for driving Karnataka's industrial strategy, empowering SMEs to thrive in an increasingly competitive marketplace.

Clean Mobility Policy Launch

Clean Mobility Policy was launched by Shri K J George, Hon'ble Energy Minister

Key Highlights of the Karnataka Clean Mobility Policy 2025-2030:
